## INDUSTRIAL CONVEYORS & AUTOMATION

Your ultimate destination for Conveyors

Scan to visit our website

Established in 2012 as a small fabricator and over the years, the company evolved and in 2014 was revamped as INTROCON, becoming a conveyor manufacturing company.

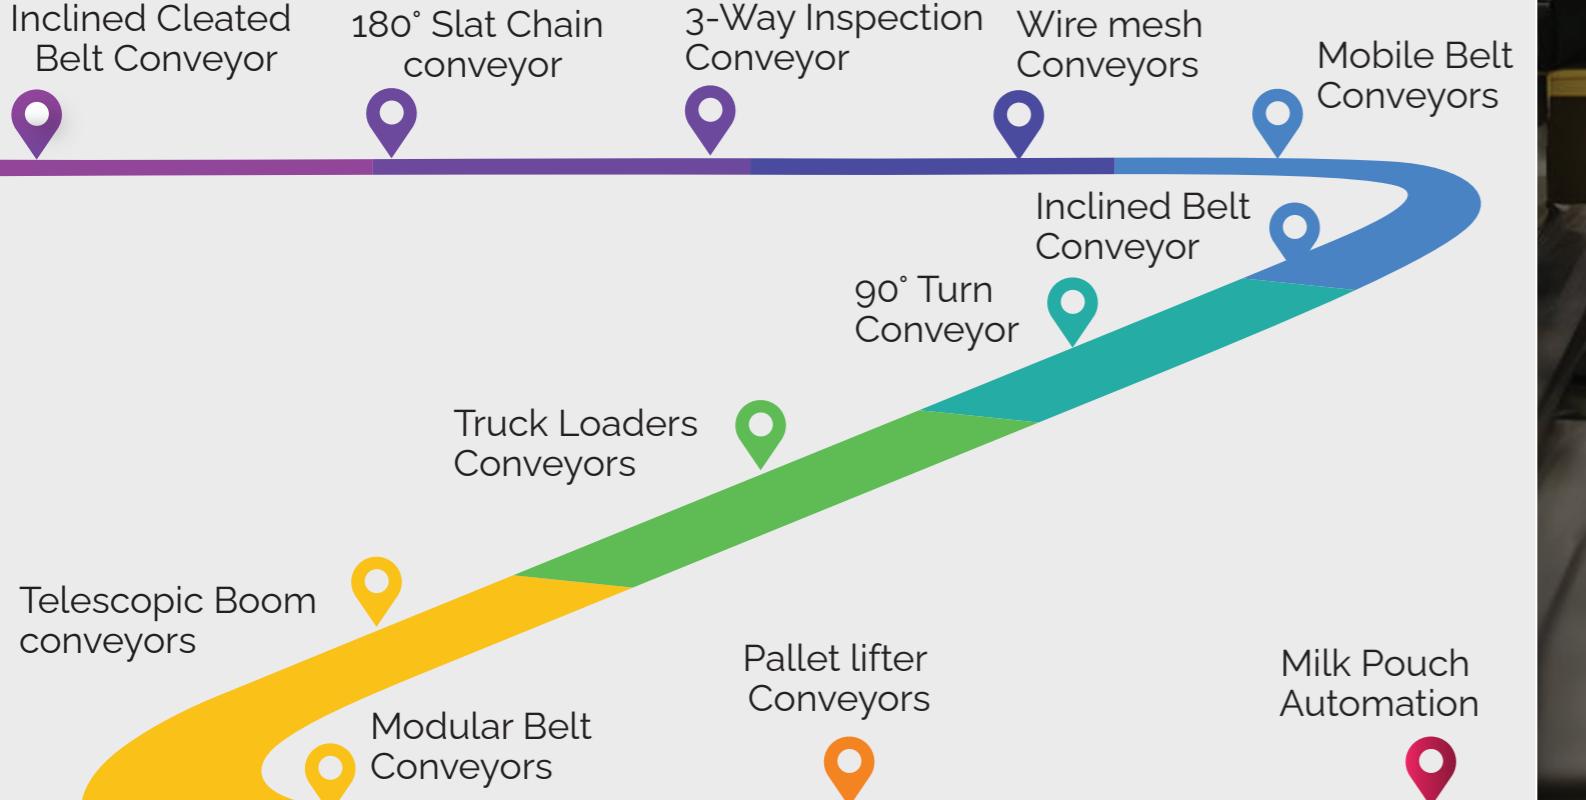

INTROCON has since evolved and diversified its services, taking on many challenging projects and accumulating skills, expertise, and experience in design, manufacturing solutions, project management, and related engineering works.

Today, INTROCON plays a key role as a major conveyor supplier to Minor to Major enterprises and provides project management services to coordinate distributed projects. In addition, INTROCON provides design inputs and engineering solutions as value-added services to its customers.

The company's mission is to provide clients with an "I-assured" experience when they choose to execute their projects. This is achieved by focusing on clear communication and follow-through procedures, ensuring that customer objectives remain the top priority throughout the planning and execution of all processes.

Overall, INTROCON is committed to providing high-quality solutions and services to its customers, leveraging its expertise, experience, and priority to enhance customer satisfaction to achieve success in the industry.

## ABOUT US

## Our Products

### PVC Belt Conveyor

Polyvinyl Chloride (PVC) conveyor belts are standard belts in the food industry that can be used for basic applications across food processing and handling. A PVC-coated conveyor belt is best suitable for materials handling, bakery production applications, and meat, fish, and dairy processing.

### Idler Spiral Conveyor

spiral-shaped conveyor belt supported by strategically placed idler rollers, which enable smooth and continuous movement of products in a vertical or inclined manner.

### Inclined Modular Belt Conveyor

Our company has been acknowledged in offering modular Belt Conveyor Inclined to the clients. modular Conveyor Inclined is precisely-designed by experts using quality assured raw-material and progressive technology in sync with industry quality standards.

### Horizontal Modular Belt Conveyor

We provide you with one of the best quality horizontal modular belt conveyors. Our merchandise are commonly regarded and dependable by customers and will meet up with continually changing economic and social wants of Horizontal Belt Conveyor.

### Cleated Inclined Conveyor

Inclined cleated belt conveyor handles bags, boxes, cartons, and parts. It may be set at any angle from horizontal to 45 degrees for various uses, including floor-to-floor conveying and the transportation of materials from building to truck or box car.

### Cleated Modular Belt Conveyor

Cleated Modular Belt Conveyor features cleats or flights on the belt surface, providing enhanced grip and control to prevent product slippage and facilitate inclined or declined conveying.
